SATCO PRODUCTS, INC. AWARDED C-TPAT CERTIFICATION

Brentwood, NY – June 10, 2009 – SATCO Products, Inc., 2009 ENERGY STAR Partner of the Year in the lighting manufacturing category, has been awarded a Customs-Trade Partnership Against Terrorism (C-TPAT) Certification. The certification allows SATCO high security clearance to expedite product shipping from overseas. SATCO sought this certification to show their commitment to the safety and security of its ports and to provide excellent customer service by seeking ways to avoid potential shipment delays.

C-TPAT is a voluntary government-business initiative to build cooperative relationships that strengthen and improve overall international supply chain and U.S. border security. C-TPAT allows the U.S. Customs and Border Protection (CBP) to provide the highest level of cargo security through close cooperation with the ultimate owners of the international supply chain such as importers, carriers, and manufacturers. Through this initiative, CBP is asking businesses to ensure the integrity of their security practices and communicate and verify the security guidelines of their business partners within the supply chain through the first worldwide supply chain security initiative.

About SATCO Products, Inc.

SATCO, established in 1966, manufactures and distributes a wide variety of lighting products to an international lighting and electrical market. SATCO was named the 2009 ENERGY STAR Partner of the Year in the lighting manufacturing category, as well as 2008's "The Best of the Test" by the Good Housekeeping Research Institute. Under the SATCO brand (www.satco.com) the company's product categories include incandescent, halogen, fluorescent, HID and energy-efficient lamps. SATCO also offers lighting and electrical components for the retail, commercial and manufacturing trade and consumer products such as night lights, desk lamps, and surge protectors. In June 2005, SATCO launched a new line of decorative and functional lighting fixtures sold under the NUVO brand (www.nuvolighting.com). The NUVO product line is strongly focused on energy efficiency with nearly 600 product styles which are ENERGY STAR qualified. An additional 2100 products service the decorative and light commercial markets.
